

Accepted Manuscript

Spatially resolved intake fraction estimates for primary and secondary particulate matter in the United States

Carmen Lamancusa, Fatema Parvez, Kristina Wagstrom

PII: S1352-2310(16)30883-4

DOI: [10.1016/j.atmosenv.2016.11.010](https://doi.org/10.1016/j.atmosenv.2016.11.010)

Reference: AEA 15003

To appear in: *Atmospheric Environment*

Received Date: 28 April 2016

Revised Date: 2 November 2016

Accepted Date: 5 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
