Human Nasal Olfactory Deposition of Inhaled Nanoparticles at Low to Moderate Breathing Rate

Lin Tian, Yidan Shang, Jingliang Dong, Kiao Inthavong, Jiyuan Tu

PII: S0021-8502(17)30224-0
DOI: <http://dx.doi.org/10.1016/j.jaerosci.2017.08.006>
Reference: AS5167

To appear in: *Journal of Aerosol Science*

Received date: 20 June 2017
Revised date: 14 August 2017
Accepted date: 18 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
