Title: Effects of inorganic anions on carbon isotope fractionation during Fenton-like degradation of trichloroethene

Author: Yunde Liu Aiguo Zhou Yiqun Gan Xiaoqian Li

PII: S0304-3894(16)30044-9
DOI: <http://dx.doi.org/doi:10.1016/j.jhazmat.2016.01.044>
Reference: HAZMAT 17396

To appear in: *Journal of Hazardous Materials*

Received date: 11-10-2015
Revised date: 11-1-2016
Accepted date: 18-1-2016

Please cite this article as: Yunde Liu, Aiguo Zhou, Yiqun Gan, Xiaoqian Li, Effects of inorganic anions on carbon isotope fractionation during Fenton-like degradation of trichloroethene, *Journal of Hazardous Materials* <http://dx.doi.org/10.1016/j.jhazmat.2016.01.044>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effects of inorganic anions on carbon isotope fractionation during Fenton-like
degradation of trichloroethene
