Osmotic versus conventional membrane bioreactors integrated with reverse osmosis for water reuse: Biological stability, membrane fouling, and contaminant removal

Wenhai Luo, Hop V. Phan, Ming Xie, Faisal I. Hai, William E. Price, Menachem Elimelech, Long D. Nghiem

PII: S0043-1354(16)30881-8

DOI: [10.1016/j.watres.2016.11.036](https://doi.org/10.1016/j.watres.2016.11.036)

Reference: WR 12517

To appear in: *Water Research*

Received Date: 17 June 2016

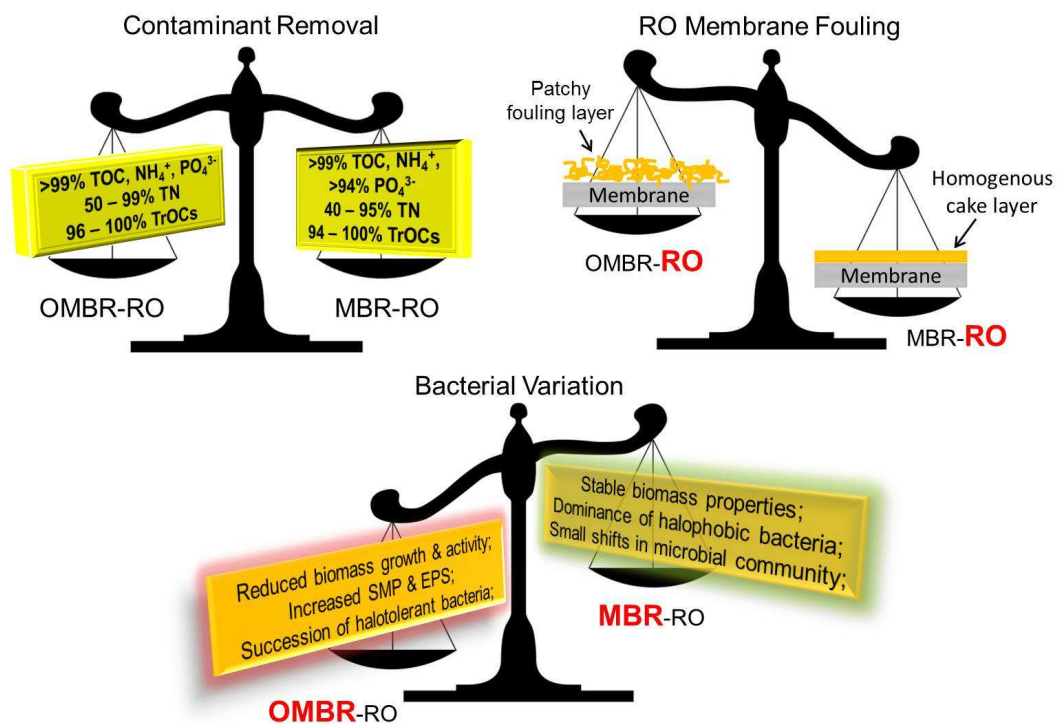

Revised Date: 10 November 2016

Accepted Date: 11 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
