

Accepted Manuscript

Identification of SNPs, QTLs, and dominant markers associated with wheat grain flavor using genotyping-by-sequencing

Alecia M. Kiszonas, Jeffrey D. Boehm, Jr., Deven See, Craig F. Morris

PII: S0733-5210(17)30194-7

DOI: [10.1016/j.jcs.2017.06.006](https://doi.org/10.1016/j.jcs.2017.06.006)

Reference: YJCRS 2379

To appear in: *Journal of Cereal Science*

Received Date: 1 March 2017

Revised Date: 6 June 2017

Accepted Date: 8 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Journal of Cereal Science

Identification of SNPs, QTLs, and dominant markers associated with wheat grain flavor using genotyping-by-sequencing
