

## Accepted Manuscript

Title: Investigating the influence of nitrate nitrogen on post-smolt Atlantic salmon *Salmo salar* reproductive physiology in freshwater recirculation aquaculture systems

Author: Christopher Good John Davidson Luke Iwanowicz Michael Meyer Julie Dietze Dana W. Kolpin David Marancik Jill Birkett Christina Williams Steven Summerfelt

PII: S0144-8609(16)30143-1  
DOI: <http://dx.doi.org/doi:10.1016/j.aquaeng.2016.09.003>  
Reference: AQUE 1864

To appear in: *Aquacultural Engineering*

Received date: 2-9-2016  
Accepted date: 25-9-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
