Title: Size does matter — determination of the critical molecular size for the uptake of chemicals across the chorion of zebrafish (*Danio rerio*) embryos

Author: Katharina E. Pelka Kirsten Henn Andreas Keck
Benjamin Sapel Thomas Braunbeck

PII: S0166-445X(16)30373-3
DOI: <http://dx.doi.org/doi:10.1016/j.aquatox.2016.12.015>
Reference: AQTOX 4558

To appear in: *Aquatic Toxicology*

Received date: 17-7-2016
Revised date: 19-11-2016
Accepted date: 16-12-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Size does matter – determination of the critical molecular size for the uptake of chemicals across the chorion of zebrafish (*Danio rerio*) embryos

Katharina E. Pelka, Kirsten Henn, Andreas Keck, Benjamin Sapel, Thomas Braunbeck*
