Tropical seascapes as feeding grounds for juvenile penaeid shrimps in southern Mozambique revealed using stable isotopes

Daniela C. de Abreu, José Paula, Adriano Macia

PII: S0272-7714(17)30843-0

DOI: [10.1016/j.ecss.2017.08.040](https://doi.org/10.1016/j.ecss.2017.08.040)

Reference: YECSS 5595

To appear in: *Estuarine, Coastal and Shelf Science*

Received Date: 24 August 2016

Revised Date: 20 August 2017

Accepted Date: 22 August 2017

Please cite this article as: de Abreu, D.C., Paula, José., Macia, A., Tropical seascapes as feeding grounds for juvenile penaeid shrimps in southern Mozambique revealed using stable isotopes, *Estuarine, Coastal and Shelf Science* (2017), doi: 10.1016/j.ecss.2017.08.040.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Tropical seascapes as feeding grounds for juvenile penaeid shrimps in southern**
