Estimating the solute transport parameters of the spatial fractional advection-dispersion equation using Bees Algorithm

Behrouz Mehdinejadiani

PII: S0169-7722(16)30300-X
DOI: doi: [10.1016/j.jconhyd.2017.06.004](https://doi.org/10.1016/j.jconhyd.2017.06.004)
Reference: CONHYD 3309
To appear in: *Journal of Contaminant Hydrology*
Received date: 22 November 2016
Revised date: 8 June 2017
Accepted date: 16 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Estimating the solute transport parameters of the spatial fractional advection-
dispersion equation using Bees Algorithm**
