Impacts of weighting climate models for hydro-meteorological climate change studies

Jie Chen, François P. Brissette, Philippe Lucas-Picher, Daniel Caya

PII: S0022-1694(17)30245-7

DOI: <http://dx.doi.org/10.1016/j.jhydrol.2017.04.025>

Reference: HYDROL 21956

To appear in: *Journal of Hydrology*

Received Date: 7 January 2016

Revised Date: 30 June 2016

Accepted Date: 12 April 2017

Please cite this article as: Chen, J., Brissette, F.P., Lucas-Picher, P., Caya, D., Impacts of weighting climate models for hydro-meteorological climate change studies, *Journal of Hydrology* (2017), doi: <http://dx.doi.org/10.1016/j.jhydrol.2017.04.025>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impacts of weighting climate models for hydro-meteorological climate change studies

Jie Chen^{*1}, François P. Brissette², Philippe Lucas-Picher^{2, 3}, Daniel Caya²
