Integrating weather and climate predictions for seamless hydrologic ensemble forecasting: A case study in the Yalong River basin

Aizhong Ye, Xiaoxue Deng, Feng Ma, Qingyun Duan, Zheng Zhou, Chao Du

PII: S0022-1694(17)30062-8

DOI: <http://dx.doi.org/10.1016/j.jhydrol.2017.01.053>

Reference: HYDROL 21792

To appear in: *Journal of Hydrology*

Received Date: 14 May 2016

Revised Date: 8 November 2016

Accepted Date: 28 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
