Juan – Carlos Silva-Tamayo ~ Department of Earth and Atmospheric Sciences, University of Houston, Houston, TX 77204, USA; jsilvata@central.uh.edu

Juan-Carlos Silva-Tamayo is currently an Assistant Professor of Sedimentary and Environmental Geology at the University of Houston. He received his Ph.D. in Isotope Geochemistry at the University of Berne, Switzerland (2009). His research interests include paleoceanography, basin analysis, sequence stratigraphy, sedimentary geology. His research has focused on investigating the evolution of the marine carbonate factories from the Mesoproterozoic until the recent.

Javier Sanchez ~ Department of Earth and Atmospheric Sciences, University of Houston, Houston, TX 77204, USA; cjsanchez3@uh.edu

Javier Sanchez is a postdoctoral researcher at the University of Houston. He holds a
