

## Accepted Manuscript

Effects of soil surface roughness on interrill erosion processes and sediment particle size distribution

Wenfeng Ding, Chihua Huang

PII: S0169-555X(17)30339-2  
DOI: doi:[10.1016/j.geomorph.2017.08.033](https://doi.org/10.1016/j.geomorph.2017.08.033)  
Reference: GEOMOR 6128

To appear in: *Geomorphology*

Received date: 23 April 2017  
Revised date: 14 August 2017  
Accepted date: 14 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effects of soil surface roughness on interrill erosion processes and sediment particle size distribution
