Deformation at the frictional-viscous transition: Evidence for cycles of fluid-assisted embrittlement and ductile deformation in the granitoid crust

Philip Wehrens, Alfons Berger, Max Peters, Thomas Spillmann, Marco Herwegh

PII: S0040-1951(16)30475-9
DOI: doi: [10.1016/j.tecto.2016.10.022](https://doi.org/10.1016/j.tecto.2016.10.022)
Reference: TECTO 127289

To appear in: *Tectonophysics*

Received date: 10 December 2015
Revised date: 7 October 2016
Accepted date: 22 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
