Evidence and origin of different types of sedimentary organic matter from a Paleoproterozoic Orogenic Au deposit

Aileen Mirasol-Robert, Hendrik Grotheer, Julien Bourdet, Alexandra Suvorova, Kliti Grice, T. Campbell McCuaig, Paul F. Greenwood

PII: S0301-9268(17)30091-8
DOI: <http://dx.doi.org/10.1016/j.precamres.2017.07.028>
Reference: PRECAM 4838

To appear in: *Precambrian Research*

Received Date: 20 February 2017
Revised Date: 13 July 2017
Accepted Date: 19 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
