

## Accepted Manuscript

Metamorphic  $P - T - t - d$  evolution of (U)HP metabasites from the South Tianshan accretionary complex (NW China) – Implications for rock deformation during exhumation in a subduction channel

Jérémie Soldner, Emilien Oliot, Karel Schulmann, Pavla Štípská, Vladimír Kusbach, Robert Anczkiewicz

PII: S1342-937X(16)30180-0  
DOI: doi: [10.1016/j.jgr.2016.07.007](https://doi.org/10.1016/j.jgr.2016.07.007)  
Reference: GR 1664

To appear in: *Gondwana Research*

Received date: 13 April 2016  
Revised date: 28 July 2016  
Accepted date: 30 July 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
