Hydrous parental magmas of Early to Middle Permian gabbroic intrusions in western Inner Mongolia, North China: New constraints on deep-Earth fluid cycling in the Central Asian Orogenic Belt

Chong-Jin Pang, Xuan-Ce Wang, Bei Xu, Zhi-Wen Luo, Yi-Zhi Liu

PII: S1367-9120(17)30121-9

DOI: <http://dx.doi.org/10.1016/j.jseaes.2017.03.012>

Reference: JAES 3009

To appear in: *Journal of Asian Earth Sciences*

Received Date: 6 October 2016

Revised Date: 8 March 2017

Accepted Date: 10 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Hydrous parental magmas of Early to Middle Permian gabbroic
intrusions in western Inner Mongolia, North China: new constraints on
deep-Earth fluid cycling in the Central Asian Orogenic Belt
