The lithospheric structure beneath southeast Tibet revealed by P and S receiver functions

Haiyan Yang, Hengchu Peng, Jiafu Hu

PII: S1367-9120(17)30048-2

DOI: <http://dx.doi.org/10.1016/j.jseaes.2017.02.001>

Reference: JAES 2954

To appear in: *Journal of Asian Earth Sciences*

Received Date: 10 June 2016

Revised Date: 1 February 2017

Accepted Date: 1 February 2017

Please cite this article as: Yang, H., Peng, H., Hu, J., The lithospheric structure beneath southeast Tibet revealed by P and S receiver functions, *Journal of Asian Earth Sciences* (2017), doi: <http://dx.doi.org/10.1016/j.jseaes.2017.02.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The lithospheric structure beneath southeast Tibet revealed by P and S receiver functions
