System reliability analysis of soil slopes stabilized with piles

J. Zhang, H. Wang, H.W. Huang, L.H. Chen

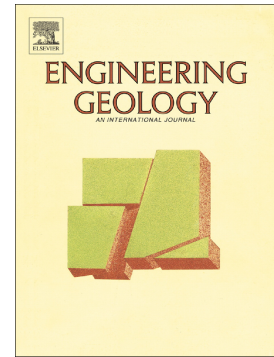

PII: S0013-7952(17)30137-0
DOI: doi: [10.1016/j.enggeo.2017.09.009](https://doi.org/10.1016/j.enggeo.2017.09.009)
Reference: ENGEO 4646

To appear in: *Engineering Geology*

Received date: 25 January 2017
Revised date: 7 September 2017
Accepted date: 8 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
