DEM investigation of mechanical behavior and strain localization of methane hydrate bearing sediments with different temperatures and water pressures

Mingjing Jiang, Di Peng, Jin Y. Ooi

PII: S0013-7952(17)30602-6
DOI: doi: [10.1016/j.enggeo.2017.04.011](https://doi.org/10.1016/j.enggeo.2017.04.011)
Reference: ENGEO 4549

To appear in: *Engineering Geology*

Received date: 1 July 2015
Revised date: 7 April 2017
Accepted date: 14 April 2017

The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Enggeo(2017), doi: [10.1016/j.enggeo.2017.04.011](https://doi.org/10.1016/j.enggeo.2017.04.011)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

DEM investigation of mechanical behavior and strain localization of methane hydrate bearing sediments with different temperatures and water pressures
