

## Accepted Manuscript

Multi-scale analysis of the mechanical improvement induced by lime addition on a pyroclastic soil

Giulia Guidobaldi, Costanza Cambi, Manuela Cecconi, Dimitri Deneele, Michaël Paris, Giacomo Russo, Enza Vitale

PII: S0013-7952(16)30744-X  
DOI: doi: [10.1016/j.enggeo.2017.03.012](https://doi.org/10.1016/j.enggeo.2017.03.012)  
Reference: ENGEO 4525

To appear in: *Engineering Geology*

Received date: 2 December 2016  
Revised date: 8 March 2017  
Accepted date: 12 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Multi-Scale Analysis of the Mechanical Improvement Induced by Lime Addition on a Pyroclastic Soil
