SGIP1 Alters Internalization and Modulates Signaling of Activated Cannabinoid Receptor 1 in Biased Manner

Alena Hájková, Šárka Techlovská, Michaela Dvořáková, Jayne Nicole Chambers, Jiří Kumpošt, Pavla Hubálková, Laurent Prezeau, Jaroslav Blahos

PII: S0028-3908(16)30080-6

DOI: [10.1016/j.neuropharm.2016.03.008](https://doi.org/10.1016/j.neuropharm.2016.03.008)

Reference: NP 6205

To appear in: *Neuropharmacology*

Received Date: 10 September 2015

Revised Date: 24 February 2016

Accepted Date: 4 March 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## CB1R signaling in cells without SGIP1

## CB1R signaling in cells expressing SGIP1
