D-AMPHETAMINE withdrawal-induced decreases in brain-derived neurotrophic factor in sprague-dawley rats are reversed by treatment with ketamine

Jasmine J.L. Fuller, Ryan C. Murray, Kristen A. Horner, Ph.D.

PII: S0028-3908(15)00152-5

DOI: [10.1016/j.neuropharm.2015.04.023](https://doi.org/10.1016/j.neuropharm.2015.04.023)

Reference: NP 5832

To appear in: *Neuropharmacology*

Received Date: 20 January 2015

Revised Date: 24 April 2015

Accepted Date: 26 April 2015
