Title: Establishing the importance of oil-membrane interactions on the transmembrane diffusion of physicochemically diverse compounds

Author: Omaima N. Najib Gary P. Martin Al-Sayed Sallam Darragh Murnane

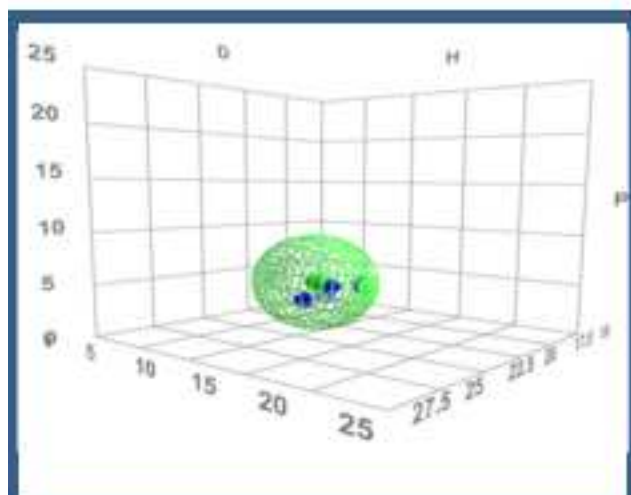

PII: S0378-5173(16)30219-8
DOI: <http://dx.doi.org/doi:10.1016/j.ijpharm.2016.03.020>
Reference: IJP 15618

To appear in: *International Journal of Pharmaceutics*

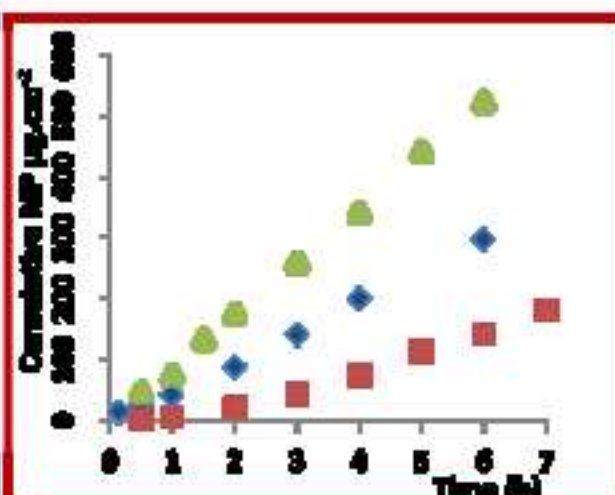

Received date: 18-1-2016
Revised date: 9-3-2016
Accepted date: 11-3-2016

Please cite this article as: Najib, Omaima N., Martin, Gary P., Sallam, Al-Sayed, Murnane, Darragh, Establishing the importance of oil-membrane interactions on the transmembrane diffusion of physicochemically diverse compounds. *International Journal of Pharmaceutics* <http://dx.doi.org/10.1016/j.ijpharm.2016.03.020>

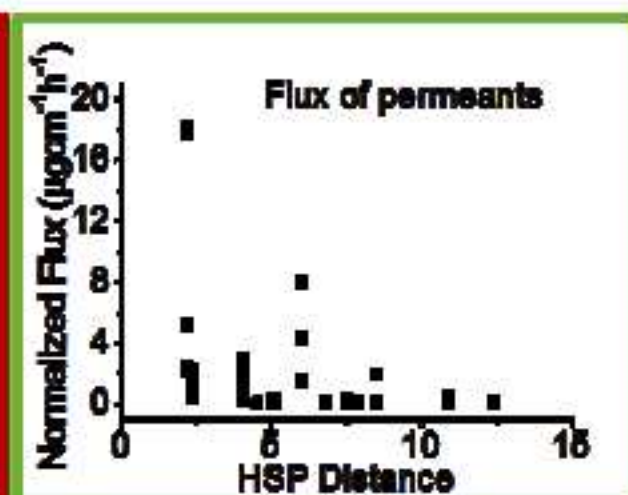

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Assessment of physicochemical match of oily vehicles and synthetic membranes

Transmembrane flux of model permeants from oily vehicle systems

Permeant transport affected by membrane-vehicle compatibility
