

Accepted Manuscript

From canonical to non-canonical cyclic nucleotides as second messengers:
Pharmacological implications

Roland Seifert, Erich H. Schneider, Heike Bähre

PII: S0163-7258(14)00231-9
DOI: doi: [10.1016/j.pharmthera.2014.12.002](https://doi.org/10.1016/j.pharmthera.2014.12.002)
Reference: JPT 6744

To appear in: *Pharmacology and Therapeutics*

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

P&T #22663

**From canonical to non-canonical cyclic nucleotides as
second messengers: Pharmacological implications**
