Hypoxia-induced pulmonary arterial hypertension augments lung injury and airway reactivity caused by ozone exposure

Katherine E. Zychowski, Selita N. Lucas, Bethany Sanchez, Guy Herbert, Matthew J. Campen

PII: S0041-008X(16)30137-5
DOI: doi: [10.1016/j.taap.2016.06.003](https://doi.org/10.1016/j.taap.2016.06.003)
Reference: YTAAP 13667

To appear in: *Toxicology and Applied Pharmacology*

Received date: 2 March 2016
Revised date: 10 May 2016
Accepted date: 3 June 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Hypoxia-induced Pulmonary Arterial Hypertension Augments Lung Injury and Airway
Reactivity Caused by Ozone Exposure**
