Title: Effects of lead and cadmium co-exposure on hemoglobin in a Chinese population

Author: Xiao Chen Hao Zhou Xiaoshuang Li Zhongqiu Wang Guoying Zhu Taiyi Jin

Please cite this article as: Chen, X., Zhou, H., Li, X., Wang, Z., Zhu, G., Jin, T., Effects of lead and cadmium co-exposure on hemoglobin in a Chinese population, *Environmental Toxicology and Pharmacology* (2015), http://dx.doi.org/10.1016/j.etap.2015.02.005

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## ACCEPTED MANUSCRIPT

## Highlights

1. This study observed the interactive effects of cadmium and lead on hemoglobin (Hb).

2. This study evidenced that Cd and Pb can influence Hb level.

3. Cadmium and lead may have interaction effects on Hb.

4. Hb was correlated with tubular dysfunction caused by cadmium and lead exposure.
