Development of an in vitro high content imaging assay for quantitative assessment of CAR-dependent mouse, rat, and human primary hepatocyte proliferation

Valerie Soldatow, Richard C. Peffer, O. Joseph Trask, David E. Cowie, Melvin E. Andersen, Edward LeCluyse, Chad Deisenroth

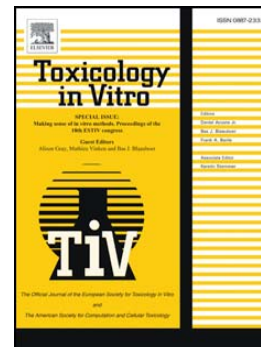

PII: S0887-2333(16)30155-2
DOI: doi: [10.1016/j.tiv.2016.08.006](https://doi.org/10.1016/j.tiv.2016.08.006)
Reference: TIV 3828

To appear in:

Received date: 7 July 2016
Revised date: 9 August 2016
Accepted date: 11 August 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
