This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Prospective Risk of Rheumatologic Disease associated with Occupational Exposure in a Cohort of Male  
Construction Workers

Running Title: Risk Rheumatologic Disease Construction Workers

Paul D. Blanc, M.D., M.S.P.H, Division of Occupational and Environmental Medicine, Department of  
Medicine, University of California San Francisco, San Francisco

Bengt Järvholm, M.D., Ph.D., Department of Public Health and Clinical Medicine, Umeå University,  
Umeå, Sweden

Kjell Torén, M.D., Ph.D., Section of Occupational and Environmental Medicine, Sahlgrenska Academy at  
University of Gothenburg and Sahlgrenska University Hospital, Gothenburg, Sweden

Funding: This work was supported in part by a visiting professorship (P. D. Blanc) at the Sahlgrenska  
Academy at University of Gothenburg, Gothenburg, Sweden and the Swedish Research Council for  
Health, Working Life and Welfare (Forte). Funding was also provided to allow presentation of this  
research at an international colloquium silicosis held at Sciences Po, Paris, France, November, 2014.

Role: All authors had access to the data and a role in writing the manuscript.

Conflicts of Interest: None.
