The Association between Red Cell Distribution Width and Stroke in Patients with Atrial Fibrillation

Walid Saliba, M.D., MPH Ofra Barnett-Griness, Ph.D Mazen Elias, M.D. Gad Rennert, M.D., Ph.D.

PII: S0002-9343(14)00895-X

DOI: [10.1016/j.amjmed.2014.09.020](https://doi.org/10.1016/j.amjmed.2014.09.020)

Reference: AJM 12706

To appear in: *The American Journal of Medicine*

Received Date: 21 August 2014

Revised Date: 23 September 2014

Accepted Date: 23 September 2014

Please cite this article as: Saliba W, Barnett-Griness O, Elias M, Rennert G, The Association between Red Cell Distribution Width and Stroke in Patients with Atrial Fibrillation, *The American Journal of Medicine* (2014), doi: 10.1016/j.amjmed.2014.09.020.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**The Association between Red Cell Distribution Width and Stroke in Patients
with Atrial Fibrillation**

Walid Saliba, M.D., MPH^{1,2}, Ofra Barnett-Griness, Ph.D¹, Mazen Elias, M.D.²,
Gad Rennert, M.D., Ph.D.^{1,3}

3. Department of Epidemiology and Disease Prevention, Office of the Chief Physician, Clalit Health Services Headquarters, Tel Aviv, Israel.

Article type: Clinical Research Study

Word count: 2774

Funding source: There was no funding source for the preparation of this manuscript

Conflict of interest statement: All authors declare that there is no conflict of interest

All authors declare that they had access to the data and took part in the writing of this manuscript.

Running head: Red cell distribution width and stroke prediction in atrial fibrillation

Key words: Atrial fibrillation; CHADS₂; CHA₂DS₂-VASc; Red cell distribution width; Stroke

Address of corresponding author:
