FUNDING SOURCE: Hill-Rom supplied devices for testing on loan, and a research grant that partially covered the costs of equipment for the study. Hill-Rom had no role in the study design, collection, analysis or interpretation of the data of the approval and submission of the final written report. An intramural research fund at Boston Children's Hospital covered the remaining costs.

CONFLICTS OF INTEREST: CDS discloses relationships with Hill-Rom for an unrestricted research grant (present work), KJB discloses a relationship with Hill-Rom for an unrestricted research grant (present work).

AUTHOR CONTRIBUTIONS:

CDS- literature search, data collection, study design, analysis of data, manuscript preparation, review of manuscript

KJB- literature search, data collection, study design, manuscript preparation, review of manuscript
