Cross-talk in host-parasite associations: what do past and recent proteomics approaches tell us?

Chérif Chetouhi, Johan Panek, Ludovic Bonhomme, Hicham ElAlaoui, Catherine Texier, Thierry Langin, Charissa de Bekker, Serge Urbach, Edith Demettré, Dorothée Misse, Philippe Holzmüller, David P. Hughes, Andreas Zanzoni, Christine Brun, David G. Biron

PII: S1567-1348(15)00140-9
DOI: <http://dx.doi.org/10.1016/j.meegid.2015.04.015>
Reference: MEEGID 2319

To appear in: *Infection, Genetics and Evolution*

Received Date: 3 November 2014
Revised Date: 15 April 2015
Accepted Date: 16 April 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cross-talk in host-parasite associations: what do past and recent proteomics approaches tell us?
