## **Accepted Manuscript**

Title: Horizontal Gene Transfer in Schistosomes: a Critical

Assessment

Author: Bhagya K. Wijayawardena Dennis J. Minchella

J.Andrew DeWoody

PII: S0166-6851(15)30006-2

DOI: http://dx.doi.org/doi:10.1016/j.molbiopara.2015.05.008

Reference: MOLBIO 10904

To appear in: Molecular & Biochemical Parasitology

Received date: 19-2-2015 Revised date: 27-5-2015 Accepted date: 29-5-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## ACCEPTED MANUSCRIPT

Evaluation of Horizontal Gene Transfers in schistosome-host systems: False positive identifications due to conserved genes and technical artifacts.

Bhagya K. Wijayawardena¹¹, Dennis J. Minchella¹ and J. Andrew DeWoody¹.²¹
¹ Departments of Biological Sciences and ²Forestry and Natural Resources, Purdue University, West Lafayette, Indiana 47907, USA

### 8 Highlights

- Parasites are often implicated in Horizontal Gene transfers (HGTs)
- We used molecular and bioinformatic methods to examine published schistosome-HGTs
- We were unable to support any reported cases
- Gene conservation and technical artifacts could possibly explain false positives
