

2015 SOUTHERN REGIONAL MEETING PROGRAM AT-A-GLANCE

The Southern Regional meeting is just a few weeks away (February 26 – 28, 2015). We hope that your reservations have been made to join us as we have some outstanding sessions planned. If not, there's still plenty of time. Go to www.ssciweb.org and click on Events, then Meetings. All the information you need is there to register for the meeting and obtain your hotel accommodations.

To encourage your attendance, this month's issue includes an "At-A-Glance", which will identify some of the various workshops as well as speakers for the Southern Club Dinner meetings, President's Symposium, Joint Plenary Session the Founders' Medal presentation and more.

The mission of the Southern Society for Clinical Investigation is dedicated to the advancement of medical research and the exchange of knowledge, information and ideas. Its members are committed to mentoring future generations of medical investigators and promoting careers in academic medicine.

The vision of the Southern Society for Clinical Investigation is to be recognized as the premier regional society supporting the advancement of medical research by sponsoring an annual meeting, recognizing excellence in academic medicine, developing programs specifically to support young medical investigators, and publishing *The American Journal of the Medical Sciences*.

We hope you join us in New Orleans next month as we continue to work diligently to offer the best academic meeting. We look forward to seeing you there!

Thank you,
SSCI Officers
