Protective effects of butyrate-based compounds on a mouse model for spinal muscular atrophy

Matthew E.R. Butchbach, Casey J. Lumpkin, Ashlee W. Harris, Luciano Saieva, Jonathan D. Edwards, Eileen Workman, Louise R. Simard, Livio Pellizzoni, Arthur H.M. Burghes

PII: S0014-4886(16)30031-0
DOI: doi: [10.1016/j.expneurol.2016.02.009](https://doi.org/10.1016/j.expneurol.2016.02.009)
Reference: YEXNR 12215

To appear in: *Experimental Neurology*

Received date: 10 December 2015
Revised date: 11 February 2016
Accepted date: 13 February 2016

Please cite this article as: Butchbach, Matthew E.R., Lumpkin, Casey J., Harris, Ashlee W., Saieva, Luciano, Edwards, Jonathan D., Workman, Eileen, Simard, Louise R., Pellizzoni, Livio, Burghes, Arthur H.M., Protective effects of butyrate-based compounds on a mouse model for spinal muscular atrophy, *Experimental Neurology* (2016), doi: [10.1016/j.expneurol.2016.02.009](https://doi.org/10.1016/j.expneurol.2016.02.009)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Protective Effects of Butyrate-based Compounds on a Mouse Model for Spinal Muscular Atrophy

Matthew E. R. Butchbach^{1,3,4,5,6,*}, Casey J. Lumpkin^{3,6}, Ashlee W. Harris³, Luciano Saieva^{7,†}, Jonathan D. Edwards¹, Eileen Workman^{1,‡}, Louise R. Simard⁸, Livio Pellizzoni⁷ and Arthur H. M. Burghes^{1,2,*}
