

## Accepted Manuscript

Myenteric expression of nerve growth factor and the p75 neurotrophin receptor regulate axonal remodeling as a consequence of colonic inflammation in mice

Casey N. Petrie, Michael N. Armitage, Michael D. Kawaja

PII: S0014-4886(15)30020-0  
DOI: doi: [10.1016/j.expneurol.2015.06.010](https://doi.org/10.1016/j.expneurol.2015.06.010)  
Reference: YEXNR 12049

To appear in: *Experimental Neurology*

Received date: 12 March 2015  
Revised date: 3 June 2015  
Accepted date: 9 June 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Myenteric expression of nerve growth factor and the p75 neurotrophin receptor regulate axonal remodeling as a consequence of colonic inflammation in mice.**
