Title: Relationship between muscle impairments, postural stability, and gait parameters assessed with lower-trunk accelerometry in myotonic dystrophy type 1

Author: Damien Bachasson, Amélie Moraux, Gwenn Ollivier, Valérie Decostre, Isabelle Ledoux, Teresa Gidaro, Laurent Servais, Anthony Behin, Tanya Stojkovic, Luc J. Hébert, Jack Puymirat, Bruno Eymard, Guillaume Bassez, Jean-Yves Hogrel

PII: S0960-8966(15)30139-5
DOI: <http://dx.doi.org/doi: 10.1016/j.nmd.2016.05.009>
Reference: NMD 3188

To appear in: *Neuromuscular Disorders*

Received date: 2-12-2015
Revised date: 10-5-2016
Accepted date: 10-5-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Relationship between muscle impairments, postural**
 2 **stability, and gait parameters assessed with lower-trunk**
 3 **accelerometry in myotonic dystrophy type 1**
