Anti-NMDA Receptor Encephalitis: A Potential Mimic of Neuroleptic Malignant Syndrome

Margaret Rozier, MD, Denise Morita, MD, Marta King, MD, MEd

PII: S0887-8994(16)30045-5

DOI: [10.1016/j.pediatrneurol.2016.03.023](https://doi.org/10.1016/j.pediatrneurol.2016.03.023)

Reference: PNU 8897

To appear in: *Pediatric Neurology*

Received Date: 24 January 2016

Accepted Date: 30 March 2016

Please cite this article as: Rozier M, Morita D, King M, Anti-NMDA Receptor Encephalitis: A Potential Mimic of Neuroleptic Malignant Syndrome, *Pediatric Neurology* (2016), doi: 10.1016/j.pediatrneurol.2016.03.023.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Anti-NMDA Receptor Encephalitis: A Potential Mimic of Neuroleptic Malignant Syndrome

Margaret Rozier, MD, Denise Morita, MD, Marta King MD, MEd

Affiliation: Department of Pediatrics, Saint Louis University School of Medicine, St. Louis, MO (MR and MK), Granger Medical Clinic, Riverton, UT (DM)

Short Title: Anti-NMDA receptor Encephalitis: A Potential Mimic of NMS

First Draft Author: Margaret Rozier

Address correspondence to: Marta King, St. Louis University Department of Pediatrics

Division of General Academic Pediatrics (GAP), 1465 S Grand, Room 3711 North Tower, St. Louis, MO 63104, [Making@slu.edu], [314 268-4150](tel:3142684150).

Abbreviations: CT-computed tomography, CSF-cerebrospinal fluid, ED-emergency department, NMDA- N-methyl-D-aspartate, NMS-neuroleptic malignant syndrome, PICU-pediatric intensive care unit

Key Words: Anti-NMDA receptor encephalitis, neuroleptic malignant syndrome, ovarian teratoma

Funding Source: No external funding was secured for this study.

Financial Disclosure Statement: The authors have no financial relationships relevant to this article to disclose.

Conflict of Interest: The authors declare no conflict of interest.
