Title: The bisphosphonate zoledronic acid regulates key angiogenesis-related genes in primary human gingival fibroblasts

Author: E.J. Ohlrich D.E. Coates M.P. Cullinan T.J. Milne S. Zafar Y. Zhao W.D. Duncan G.J. Seymour

PII: S0003-9969(15)30084-4
DOI: <http://dx.doi.org/doi:10.1016/j.archoralbio.2015.11.013>
Reference: AOB 3504

To appear in: *Archives of Oral Biology*

Received date: 3-12-2014
Revised date: 3-9-2015
Accepted date: 18-11-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The bisphosphonate zoledronic acid regulates key angiogenesis-related genes in primary human gingival fibroblasts

Ohlrich EJ, Coates DE*, Cullinan MP, Milne TJ, Zafar S, Zhao Y, Duncan WD, Seymour GJ.

Running title: Bisphosphonate and angiogenic genes
