This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

All studies published in *Gastroenterology* are embargoed until 3PM ET of the day they are published as corrected proofs on-line. Studies cannot be publicized as accepted manuscripts or uncorrected proofs.

Short title: Personalizing Colonoscopy Screening

Grant Support: This study was made possible by funding from the University of Michigan Medical School (contract number: 3001705234) and Veterans Affairs Health Services Research and Development (contract numbers: IIR 12-411 and CDA 09-213-2). This study was partially made possible by the National Cancer Institute as part of the Cancer Intervention and Surveillance Modeling Network (CISNET), which supported the development of MISCAN-Colon (grant number: U01-CA152959). The sponsors had no role in the designs and conduct of the study; collection, management, analysis, and interpretation of the data; preparation, review, or approval of the manuscript; and decision to submit the manuscript for publication.

Abbreviations: CRC = colorectal cancer; LY = life-year; MISCAN-Colon = Microsimulation Screening Analysis-Colon; QALY = quality-adjusted life-year; USPSTF = U.S. Preventive Services Task Force
