Genetics, Genetic Testing and Biomarkers of Digestive Diseases

John M. Carethers, Jonathan Braun, Bruce E. Sands

PII: S0016-5085(15)01246-9
DOI: [10.1053/j.gastro.2015.08.049](https://doi.org/10.1053/j.gastro.2015.08.049)
Reference: YGAST 60009

To appear in: *Gastroenterology*

Please cite this article as: Carethers JM, Braun J, Sands BE, Genetics, Genetic Testing and Biomarkers of Digestive Diseases, *Gastroenterology* (2015), doi: 10.1053/j.gastro.2015.08.049.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

All studies published in *Gastroenterology* are embargoed until 3PM ET of the day they are published as corrected proofs on-line. Studies cannot be publicized as accepted manuscripts or uncorrected proofs.

Short Title: Genetics and Biomarkers in GI Diseases

Abbreviations used: GI: gastrointestinal;

Key Words: biomarkers, gastrointestinal disease, gastrointestinal cancer, genetics, genomics, precision medicine, personalized medicine, molecularly targeted therapy

Contributions: JB, JMC and BES equally contributed to all aspects of this manuscript

Disclosure of Competing Interests: The authors have declared that no competing interests exist.

Acknowledgements: This work was supported by United States Public Health Service grants RO1 DK06728709 and UO1 CA162147 (to JMC), P01 DK46763 and UL1 TR000124 (to JB) and 1U01 DP004785-02 (to BES), and the A. Alfred Taubman Institute of the University of Michigan (to JMC). The authors thank all of the contributing authors for their willingness to write outstanding reviews for our readers in this special issue of *Gastroenterology*. We also thank Laura Flecha for her expert oversight of this special issue, and Sarah Williamson for her expert medical illustration assistance.
