This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

All studies published in *Gastroenterology* are embargoed until 3PM ET of the day they are published as corrected proofs on-line. Studies cannot be publicized as accepted manuscripts or uncorrected proofs.

Development and Validation of a Scoring System to Predict Outcomes of Patients With Primary Biliary Cirrhosis Receiving Ursodeoxycholic Acid Therapy

Short title:

Identification of PBC patients in need of new therapies

Willem J. Lammers¹; Gideon M. Hirschfield²; Christophe Corpechot³; Frederik Nevens⁴; Keith D. Lindor^{5,6}; Harry L.A. Janssen⁷; Annarosa Floreani⁸; Cyriel Y. Ponsioen⁹; Marlyn J.
