Bariatric Surgery Reduces Features of Non-alcoholic Steatohepatitis in Morbidly Obese Patients

Guillaume Lassailly, MD, Robert Caiazzo, PHD, David Buob, MD, Marie Pigeyre, MD, H el ene Verkindt, MD, Julien Labreuche, BST, Violeta Raverdy, MD, Emmanuelle Leteurtre, PHD, S ebastien Dharancy, PHD, Alexandre Louvet, PHD, Monique Romon, PHD, Alain Duhamel, PHD, Fran ois Pattou, PHD, Philippe Mathurin, PHD

PII: S0016-5085(15)00570-3
DOI: [10.1053/j.gastro.2015.04.014](https://doi.org/10.1053/j.gastro.2015.04.014)
Reference: YGAST 59723

To appear in: *Gastroenterology*
Accepted Date: 16 April 2015

Please cite this article as: Lassailly G, Caiazzo R, Buob D, Pigeyre M, Verkindt H, Labreuche J, Raverdy V, Leteurtre E, Dharancy S, Louvet A, Romon M, Duhamel A, Pattou F, Mathurin P, Bariatric Surgery Reduces Features of Non-alcoholic Steatohepatitis in Morbidly Obese Patients, *Gastroenterology* (2015), doi: 10.1053/j.gastro.2015.04.014.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

All studies published in *Gastroenterology* are embargoed until 3PM ET of the day they are published as corrected proofs on-line. Studies cannot be publicized as accepted manuscripts or uncorrected proofs.
