This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

All studies published in *Gastroenterology* are embargoed until 3PM ET of the day they are published as corrected proofs on-line. Studies cannot be publicized as accepted manuscripts or uncorrected proofs.

## Title: Mice with human livers

Authors: Markus Grompe\* and Stephen Strom

Addresses:

\*Corresponding author:

Markus Grompe, M.D.  
Oregon Health & Science University  
Oregon Stem Cell Center  
Department of Pediatrics  
3181 SW Sam Jackson Pk Rd.  
Portland, OR 97239  
U.S.A.

Phone: +1 503-494-6888  
e-mail: grompem@ohsu.edu

Stephen Strom, Ph.D.  
Professor, Cell Transplantation and  
Regenerative Medicine  
Department of Laboratory Medicine  
Division of Pathology, Karolinska Institutet  
Stockholm 141-86  
Sweden

Phone: +46 (0)700 92 98 44  
e-mail: stephen.strom@ki.se

Conflict of interest statement:

- Oregon Health & Science University (OHSU) and Dr. Grompe have a significant financial interest in Yecuris, a company that may have commercial interest in the results of this research and technology (humanized FRG mouse and Fah<sup>-/-</sup> pig).

Acknowledgements:

- The images in Figure 2 were kindly provided by Ashley Vaughn and Sebastian Mikolajczak from the Seattle Biomedical Research Institute. MG was supported by NIH grant R01 DK051592.
