Efficacy, Dose Reduction, and Resistance to High-dose Fluticasone in Patients with Eosinophilic Esophagitis

Bridget K. Butz, M.H.S.A. Ting Wen, Ph.D. Gerald J. Gleich, M.D. Glenn T. Furuta, M.D. Jonathan Spergel, M.D., Ph.D. Eileen King, Ph.D. Robert E. Kramer, M.D. Margaret H. Collins, M.D. Emily Stucke, B.A. Colleen Mangeot, M.S. W. Daniel Jackson, M.D. Molly O’Gorman, M.D. J. Pablo Abonia, M.D. Scott Pentiuik, M.D. Philip E. Putnam, M.D. Marc E. Rothenberg, M.D., Ph.D.

PII: S0016-5085(14)00545-9
DOI: [10.1053/j.gastro.2014.04.019](https://doi.org/10.1053/j.gastro.2014.04.019)
Reference: YGAST 59093

To appear in: *Gastroenterology*
Accepted Date: 15 April 2014

Please cite this article as: Butz BK, Wen T, Gleich GJ, Furuta GT, Spergel J, King E, Kramer RE, Collins MH, Stucke E, Mangeot C, Jackson WD, O’Gorman M, Abonia JP, Pentiuik S, Putnam PE, Rothenberg ME, Efficacy, Dose Reduction, and Resistance to High-dose Fluticasone in Patients with Eosinophilic Esophagitis, *Gastroenterology* (2014), doi: 10.1053/j.gastro.2014.04.019.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

All studies published in *Gastroenterology* are embargoed until 3PM ET of the day they are published as corrected proofs on-line. Studies cannot be publicized as accepted manuscripts or uncorrected proofs.

Efficacy, Dose Reduction, and Resistance to High-dose Fluticasone in Patients with Eosinophilic Esophagitis

Bridget K. Butz M.H.S.A.*¹, Ting Wen Ph.D.*¹, Gerald J. Gleich M.D.², Glenn T. Furuta M.D.³, Jonathan Spergel M.D., Ph.D.⁴, Eileen King Ph.D.⁵, Robert E. Kramer M.D.³, Margaret H. Collins M.D.⁶, Emily Stucke B.A.¹, Colleen Mangeot M.S.⁵, W. Daniel Jackson M.D.⁷, Molly O’Gorman M.D.⁷, J. Pablo Abonia M.D.¹, Scott Pentiuik M.D.⁸, Philip E. Putnam M.D.⁸, and Marc E. Rothenberg M.D., Ph.D.¹

*both authors contributed equally
