

Accepted Manuscript

Title: Contribution of next generation sequencing to early detection of cytomegalovirus *UL97* emerging mutants and viral subpopulations analysis in kidney transplant recipients.

Author: Isabelle Garrigue Rémi Moulinas Patricia Pinson-Recordon Marie-Laure Delacour Marie Essig Hannah Kaminski Jean-Philippe Rerolle Pierre Merville Hervé Fleury Sophie Alain

PII: S1386-6532(16)30084-1
DOI: <http://dx.doi.org/doi:10.1016/j.jcv.2016.04.017>
Reference: JCV 3610

To appear in: *Journal of Clinical Virology*

Received date: 22-2-2016
Revised date: 17-4-2016
Accepted date: 24-4-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Contribution of next generation sequencing to early detection of cytomegalovirus *UL97* emerging mutants and viral subpopulations analysis in kidney transplant recipients.

Running title: NGS for CMV *UL97* mutations and variability
