Accepted Manuscript

Nano-TiO₂-based photocatalytic disinfection of environmental surfaces contaminated by meticillin-resistant *Staphylococcus aureus*

S. Petti, G.A. Messano

PII: S0195-6701(16)00087-6

DOI: 10.1016/j.jhin.2016.01.020

Reference: YJHIN 4742

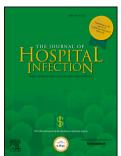

To appear in: Journal of Hospital Infection

Received Date: 7 March 2015

Accepted Date: 19 January 2016

Please cite this article as: Petti S, Messano GA, Nano-TiO₂-based photocatalytic disinfection of environmental surfaces contaminated by meticillin-resistant *Staphylococcus aureus*, *Journal of Hospital Infection* (2016), doi: 10.1016/j.jhin.2016.01.020.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Nano-TiO₂-based photocatalytic disinfection of environmental surfaces contaminated by meticillin-resistant *Staphylococcus aureus*
