Aerobic exercise training and low-level laser therapy modulate inflammatory response and degenerative process in an experimental model of knee osteoarthritis in rats

Livia Assis, Luiz Paulo Milares, Thais Almeida, Carla Tim, Angela Magri, Kelly Rossetti Fernandes, Carla Medalha, Ana Claudia Muniz Renno

PII: S1063-4584(15)01263-7

DOI: [10.1016/j.joca.2015.07.020](https://doi.org/10.1016/j.joca.2015.07.020)

Reference: YJOCA 3553

To appear in: *Osteoarthritis and Cartilage*

Received Date: 24 March 2015

Revised Date: 18 July 2015

Accepted Date: 27 July 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
