Why is antibiotic resistance a deadly emerging disease?

Patrice Courvalin

PII: S1198-743X(16)00028-8

DOI: [10.1016/j.cmi.2016.01.012](https://doi.org/10.1016/j.cmi.2016.01.012)

Reference: CMI 505

To appear in: *Clinical Microbiology and Infection*

Received Date: 27 November 2015

Revised Date: 6 January 2016

Accepted Date: 7 January 2016

Please cite this article as: Courvalin P, Why is antibiotic resistance a deadly emerging disease?, *Clinical Microbiology and Infection* (2016), doi: 10.1016/j.cmi.2016.01.012.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
