This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**TITLE PAGE****A prospective investigation of fluorescence imaging to detect sentinel lymph nodes at robotic-assisted endometrial cancer staging**

Pamela J. Paley<sup>a</sup>, Dan S. Veljovich<sup>a</sup>, Joshua Press<sup>a</sup>, Christina Isacson<sup>b</sup>, Ellen Pizer<sup>b</sup>, Chirag Shah<sup>a</sup>

<sup>a</sup>Pacific Gynecology Specialists, Division of Gynecologic Oncology, Seattle, WA, USA

<sup>b</sup>CellNetix Pathology & Laboratories, Seattle, WA, USA

Swedish Medical Center, Seattle, Washington, USA

Presented at the Pacific Coast Obstetrical and Gynecological Society Eighty-second Annual Meeting, September 2-6, 2015, Kahuku, Oahu, Hawaii.

Conflict of Interest:

D.S.V. and C.A.S. received consulting honoraria in the amount of \$2500 from Intuitive Surgical, Inc.

D.S.V. has owned 200 shares of common stock in Intuitive Surgical, Inc that had a maximum value of \$117,134 and P.J. P has owned 50 shares of common stock in Intuitive Surgical, Inc. that had a maximum value of \$29,284 in the past 3 years.

Intuitive Surgical, Inc. manufactures the da Vinci surgical system utilized in this paper and provided no financial support for this study.

The study was funded by a Swedish Foundation Philanthropy at Work Program.

Authorship: All authors fulfill all conditions required for authorship.
